Terrain 01

An OTHERSPACE Project

Artificial Life - Genetic Art

Interactive "artificial life" installation, a non-autonomous one, because it is a world of autonomous cybernetic vehicles dependent on external light energy.

Idea and Concept: Ulrike Gabriel

Brainwave Light Control: Jens Heise

Sensorics: Bob O'Kane

Trichanics: Siegfried Albrecht

 Hardware and software design as well as development of the Brainwave Light Control

GENETIC ART-ARTIFICIAL LIFE

Ars Electronica 93, Festival of Art, Technology and Society
